Special Features

User Friendly Interface

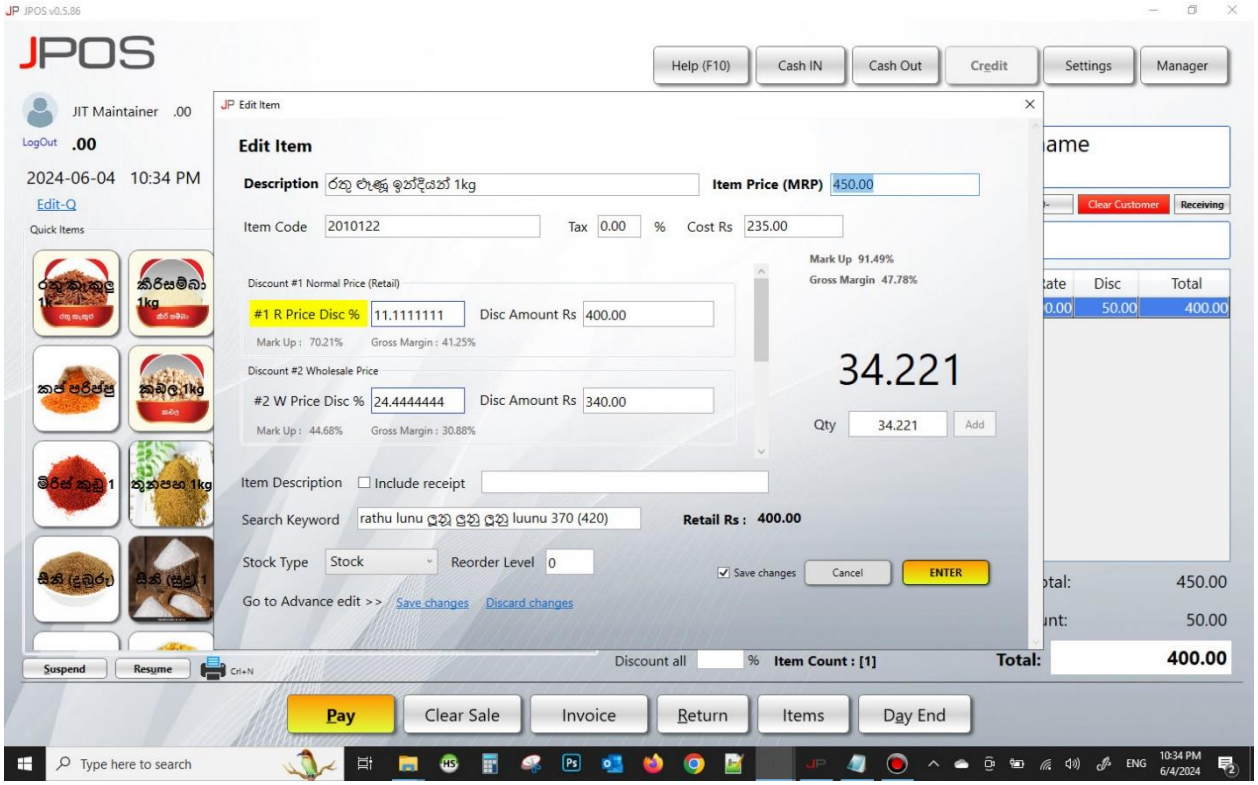

- ✓ **Cashier Interface with quick Items**

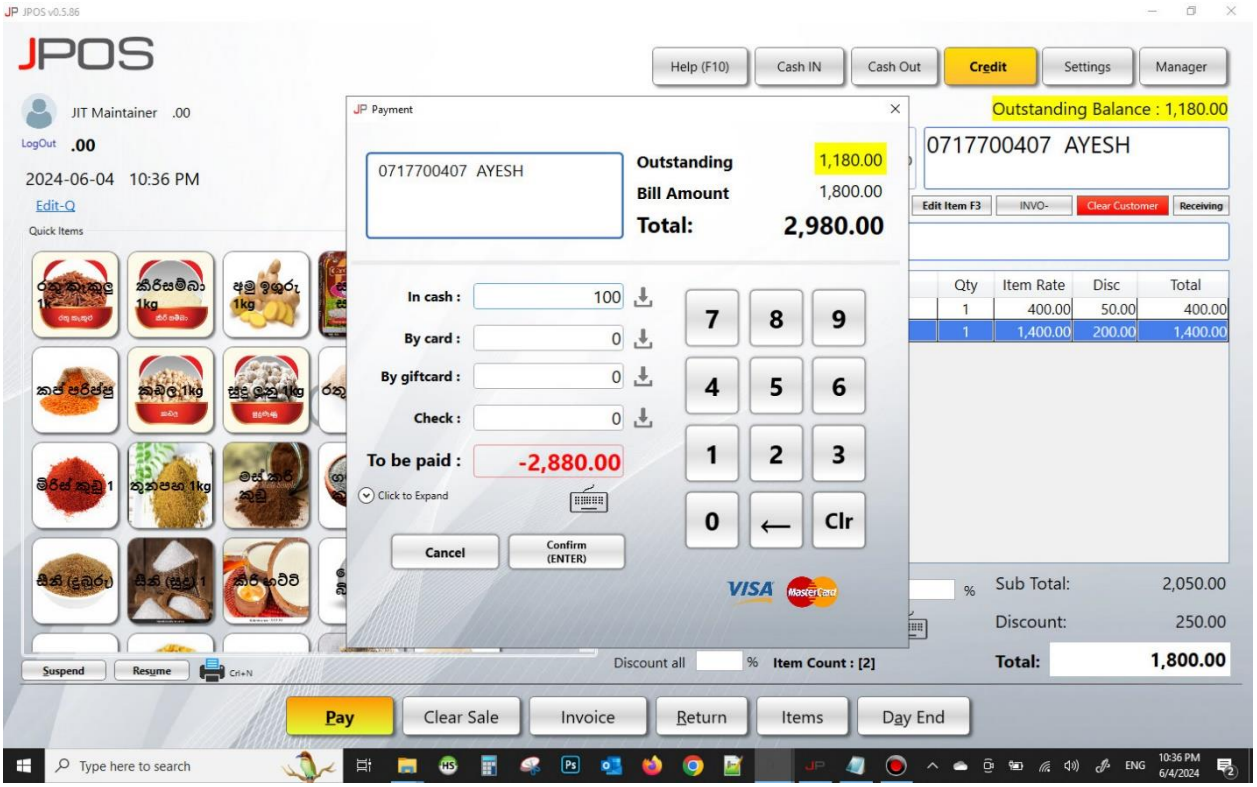

- ✓ **Supports multiple languages, including Sinhala, English, and Tamil**

✓ **Indicates reorder level and allows quick adjustments to quantity and price at the time of sale.**

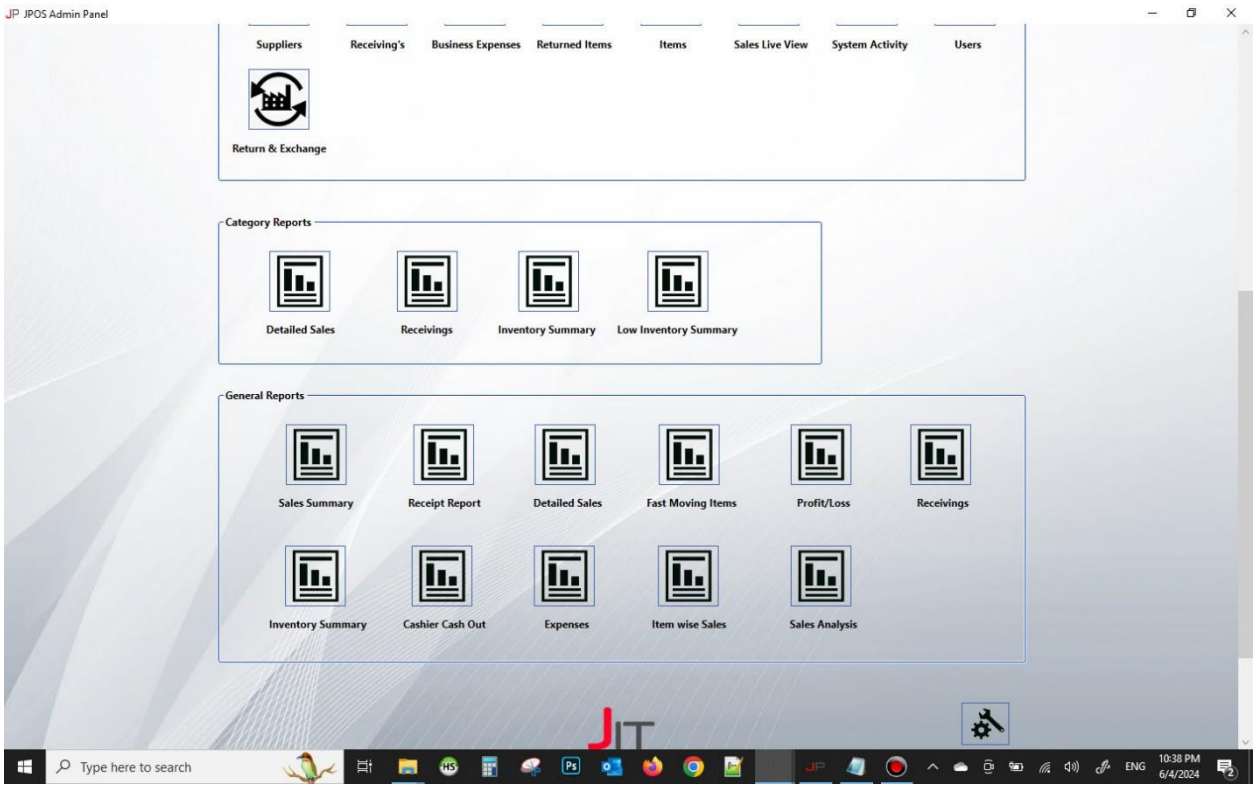

✓ **Indicate Customer Outstanding**

Include intelligent tracking tools

Back Office Tools

Special Features

GRN

- → Automated supplier cost detection and the ability to manage multiple item batches with batch-wise profit tracking.
- → Automated generation of item batches while maintaining previous batches, facilitating easier cashier activities.

Loyalty Programs

- → Capability to track the loyal customer base and monitor their purchasing behavior.
- → Ability to implement discount patterns.
- → System can identify loyal customers who have not visited the premises for an extended period and initiate an SMS campaign to encourage their return.

Sales suspend option

- → The cashier can manage multiple customers by temporarily holding them in a queue using the sales suspend option

Quick Item List option

Capability of efficiently saving both fast-moving items and items that cannot be barcoded. Furthermore, these items can easily accessible and stored in a side panel within the cashier interface for quick retrieval.

Day end email report

At the end of the day, the system will automatically send a cashier summary to the authorized person. This summary will include any detected shortages, if applicable.

Table Management

Table order status and payment status are visually displayed with color indications. The assigned add customer orders and manage them until the final payment is completed.

- → Visual Order & Payment Status – Table order and payment status are displayed with color indicators.
- → Order Management – Assigned staff can add and manage customer orders.
- → Payment Handling – Track and finalize payments efficiently.

Kitchen Inventory & Food Costing

→ Ingredient Costing Per Dish – Assign costs to each recipe and calculate per-portion or full-dish costs.

→ Daily Cost Calculation – Track kitchen expenses and update food costs dynamically across all menu items.

→ Profit Margin Optimization – Compare food cost vs. selling price to maximize profits and adjust pricing if needed.

→ Plate Costing – Calculate total cost per serving, including ingredients, preparation, and labor, to ensure profitability.

Projected Time period – One Week

Note:
The pricing outlined does not encompass expenses related to third-party software, installation or training for such software, software licensing (including operating systems, ODBC drivers, and database servers), integration with ERP systems, data migration, after-sales support, taxes, or any other associated costs.

** Traveling and accommodation will be charged from the customer. **

Late payment
Failure to make payments on time, without prior written consent from the company, will result in the assessment of late fees for any additional processing required. The late fees will be applied as follows:

A) An initial late fee equivalent to 10% of the invoiced amount will be assessed if payment is 31 days late.
B) A second late fee equivalent to 15% of the invoiced amount will be assessed if the account remains unpaid for 61 days.

Company reserves the right to refuse completion or delivery of work agreed upon with the client and disable functionality of delivered work until past due balances and any and all late fees are paid.

Terms & Conditions

Software systems are provided 'as is' unless otherwise stated in writing by JIT Solutions. Should the client request customizations to the system, a separate quotation will be provided. JIT Solutions will proceed with the customization upon confirmation and receipt of payment for the modifications. User training and implementation will be included within the defined timelines outlined in the final proposal, which will be based on a comprehensive system study. The client shall not hold JIT Solutions responsible for, or withhold payments due to, delays in implementation caused by the client or its operators. Furthermore, the client shall not withhold payments based on the delivery of customizations or new requirements introduced by the client after the initial system study and handover signing-off process.

Period of Service Availability

The service availability period provided by JITSolutions is from 8:30 am to 5:30 pm, Monday through Saturday, excluding public holidays, unless otherwise specified by JITSolutions. Additional support outside of this service period or beyond the greater Matara region will be charged at a rate of Rs. 4,500.00 per visit plus Rs. 120.00 per kilometer for locations beyond the Matara city limits. Online service will be available for 8 hours per day, 5 days a week. Clients must ensure the availability of an ADSL/Internet connection at the site to utilize this service.

Software Refund Policy

The products offered by JIT Solutions are fully functional and adhere to the specifications outlined in the original software quotation provided by JITSolutions. Prior to making a purchase decision, customers are encouraged to seek clarification through product demonstrations or by consulting with our technical team.

Upon clearance of payment, customers will receive a license key and proof of payment. Once this information is provided, no refunds will be issued, as it is not feasible to return a registered version of our software. During the pre-purchase period, our support staff is available to address inquiries and provide clarifications via email ticket or telephone. We highly recommend that all customers thoroughly review and understand the complete documentation provided before finalizing a purchase.

In rare instances and only within 7 days of purchase, if technical difficulties or platform incompatibilities prevent the software from functioning, we may, at our discretion, issue a refund minus applicable fees such as order processing, installation, customization, travel, and others (up

to 66% of the purchase price). To facilitate the refund process, you must provide sufficient information for us to positively identify your purchase transaction, such as the order number, your company name, date of transaction, purchase code, number of licenses purchased, etc. Additionally, if your request is made within the 7-day period, you must submit a letter of destruction of the software on your company letterhead before we can process the refund.

JITSolutions is not liable for lost, delayed, or misdirected mail or email, delays in downloading, or other communication system delays.

Please note that refunds cannot be issued for any hardware solutions under any circumstances, given their sales model.

Acceptance of This Refund Policy

By placing an order for any of our products, you acknowledge that it is your responsibility to familiarize yourself with this refund policy. You indicate that you have read, understood, and fully accepted the terms outlined in this refund policy.

If you do not agree with or fully accept the terms of this refund policy, we kindly ask that you refrain from placing an order with us. Should you have any questions or require clarification regarding our refund policy, please feel free to contact us.

Software Warranty

The company warrants that the software system will operate on the equipment and perform in substantial conformance with the functions specified in the original quotation provided, as well as in accordance with the company's standard documentation. In the event that any part of the software system fails to perform as warranted, the company will promptly provide replacements or corrections, provided that the licensee has notified the company of such non-performance in writing.

However, the company shall not be obligated to provide corrections if it is determined jointly by the company and the licensee that the non-performance of the software system is due to unauthorized changes or adjustments made by the licensee, incorrect use, or use on equipment not performing in accordance with the manufacturer's specifications.

Subject to the clause above, no warranty, condition, undertaking, or term, expressed or implied, is given or to be inferred as to the suitability of the software system for any particular purpose

or for use under any specific conditions, regardless of whether such purpose or conditions are known or disclosed to the company. All such warranties, conditions, undertakings, and terms are hereby nullified and excluded.

JIT Solutions warrants that the software system will function properly only if used in conjunction with the referenced software as described. However, in the event that the requisite software of any third party becomes unavailable or is phased out by its owner, the company will make every effort to either develop a substitute or modify its own software at a pre-agreed cost, allowing it to be used with alternative software available in the market.

JIT Solutions expressly disclaims any warranty, whether express or implied, regarding the security of the software system or its immunity from: (i) unauthorized access, intrusion, corruption, modification, or manipulation by third parties; (ii) disabling code or computer viruses; or (iii) program errors resulting from any of the aforementioned causes (collectively referred to as "prohibited activities"). The company shall bear no liability for such prohibited activities. Upon delivery of the licensed software system, the licensee, as the user, agrees to assume full responsibility and liability for any prohibited activities."

Right to Use Information for Branding

By receiving this document and engaging in correspondence with JIT thereafter, and upon confirmation of software installation at your site, you automatically approve and consent to the use of your trade names, brands, products, services, and locations to be included in our references and promotional materials as part of our branding and sales programs. JIT reserves the right to refer to your business as a 'client' and to quote your public operations in our sales programs and materials.

Software Prerequisites

Software, hardware, and network configurations can be provided only after a thorough volume analysis has been conducted

This Quotation Is Valid Only For 14 Days From The Date Of Origin.
